/ Water bottle filters / Tabletop filtration jugs /
/ Community water filters /

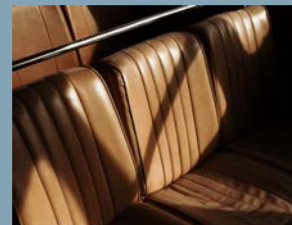

Paper

Example products
Tissue paper / Packaging /
/ Wallpaper /

Air Purification

Example products
/ Complete HVAC filters /
/ Air filtration media /

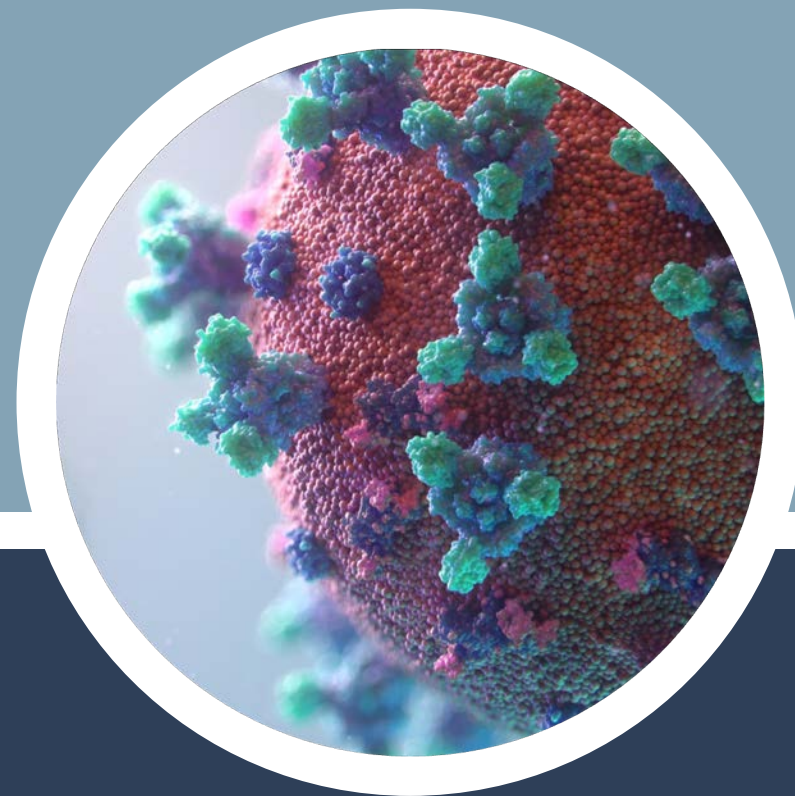

Industrial & Others

Example products
/ Transportation upholstery / Automotive filtration /
/ Duck feather bedding /

Breathesafe.life - Livinguard Technology scientifically proven to destroy > 99.9% of SARS-CoV-2.

Researchers at the University of Berlin, the Institute for Animal Hygiene and Environmental Health, and RWTH Aachen University have now demonstrated that textiles treated with Livinguard Technology can destroy > 99.9% of SARS-CoV-2 (the virus that causes COVID-19).

Tests have also been conducted under the supervision of Dr. Charles Gerba at the University of Arizona, Tucson.
